E -commerce data sale

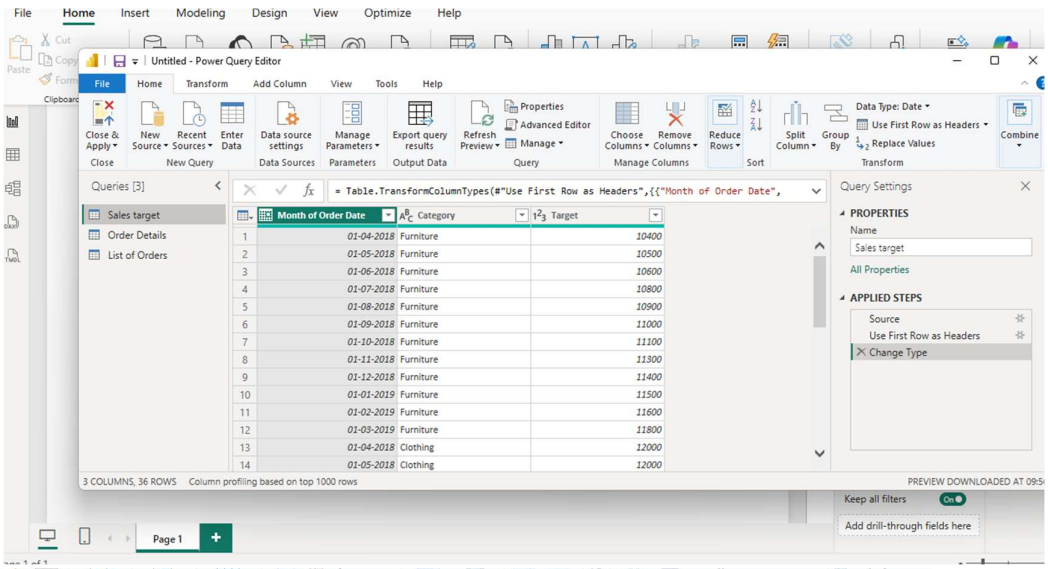

Assignment Description :

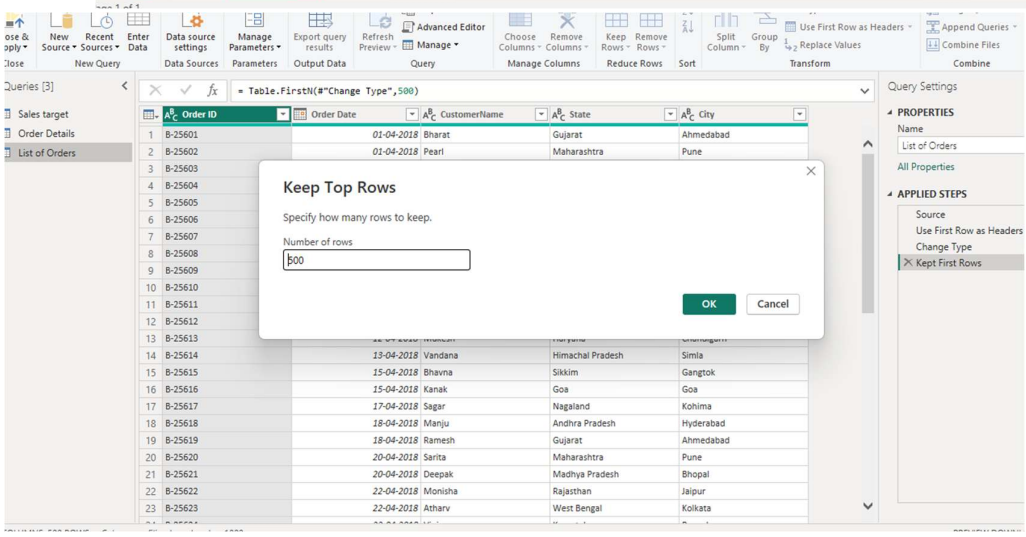

This project focuses on analyzing sales performance using Microsoft Power BI. The report uses sales-related datasets, including Order Details, List of Orders, and Sales Target, to understand sales trends and business performance.

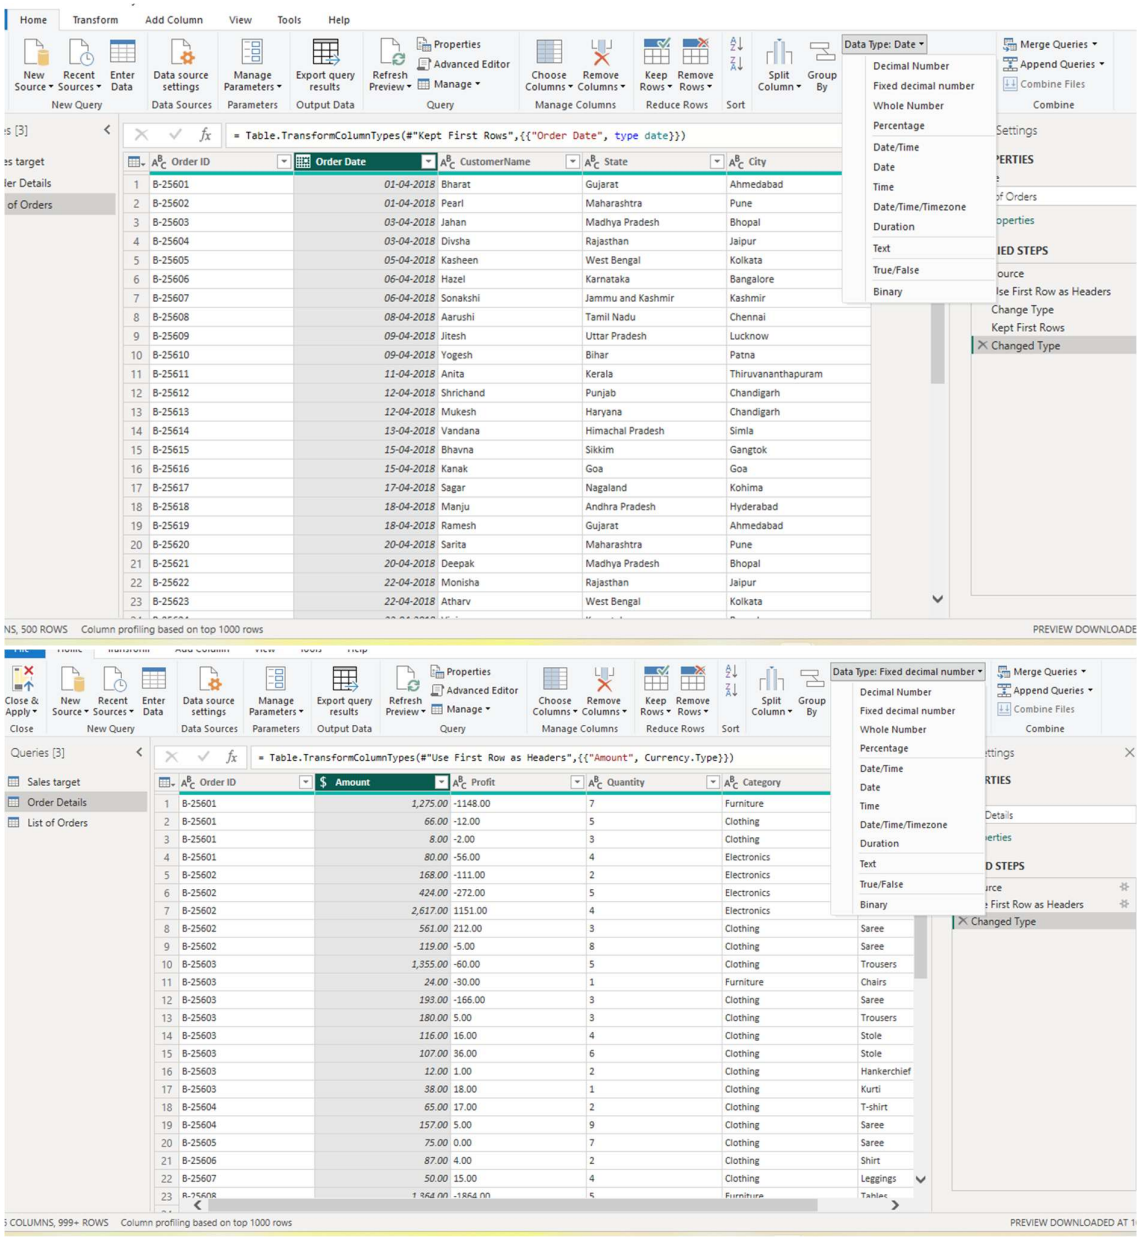

Column :

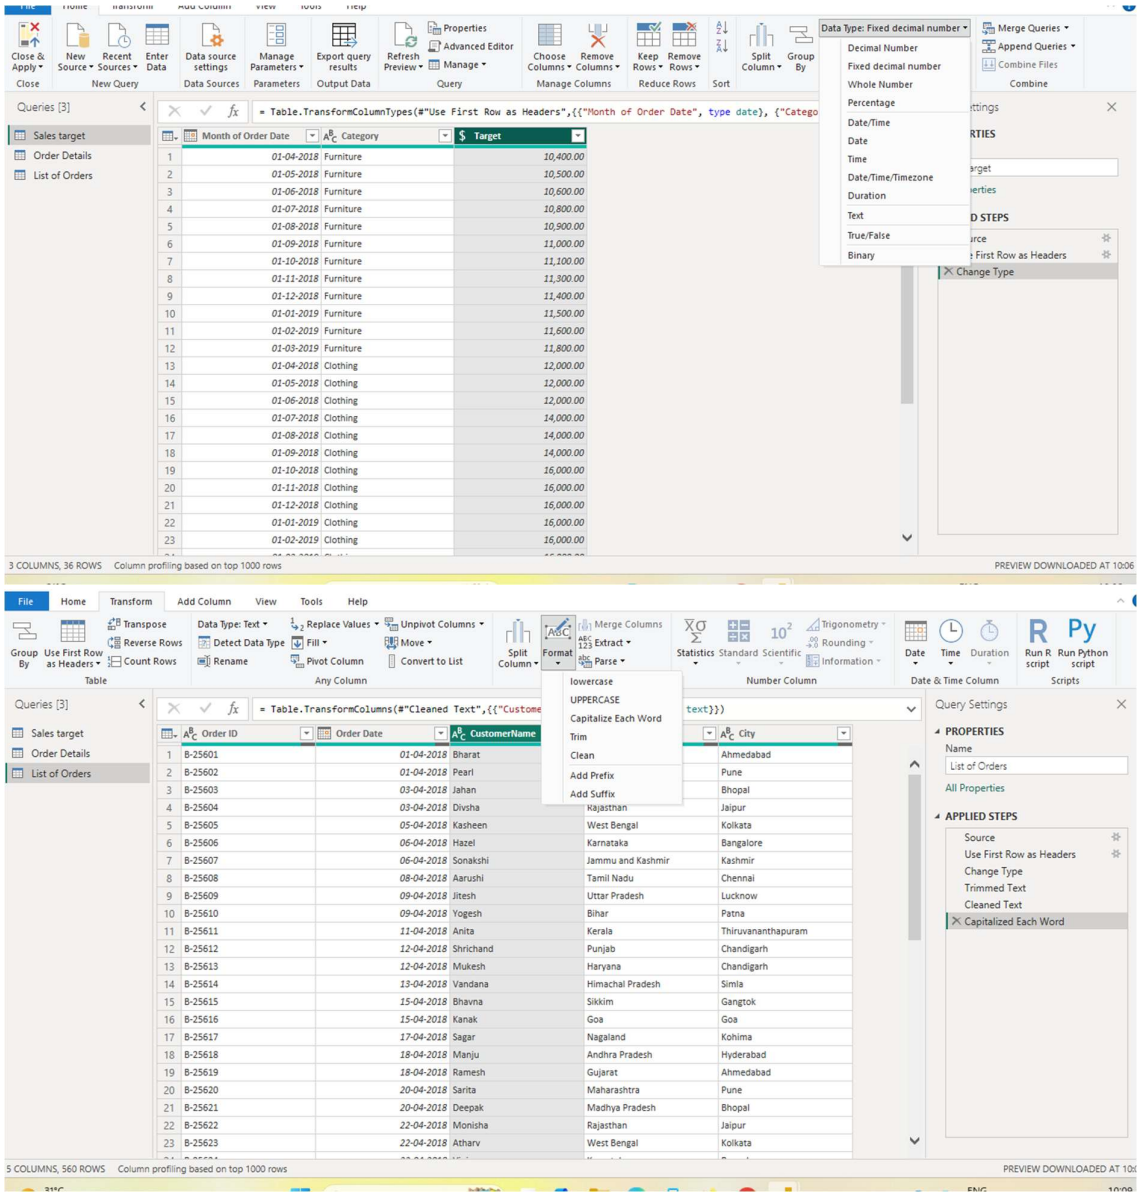

Column name	Description
Order id	Provides order id
Order date	Provides order date
Customer name	Provides customer name
City	Provides city for location
Category	Provides category
State	Provides state name
Amount	Provides amount
Profit	Analysis the profit
Location	Provides location
Profit margin	Profit margins
Profit status	Provides profit status
Month of order	Provides month of order
Target	Month target
